Molli's Memo

WOW, what a cooling and fun experience my first swimming pool experience was.

I really enjoy splashing around and getting Mommy and Daddy wet.

Nana was here recently and she said I had the "army crawl" down pretty good. I don't know what that is, but I'm having fun exploring new parts of our home.

Nana's first granddaughter

Musings for the Month

Dad's 85th Birthday Surprise

My three sisters (two from AZ and one from Missouri) and I traveled to Iowa in mid-July to surprise our father for his 85th birthday.

I don't ever remember seeing my father cry, but he did so when we arrived and again when we left. The entire experience was very moving for all of us.

This precious time together really drove home for me how important family is. The memories we create with family last can last many generations.

Betty, and sisters Bonita, Barb and Brenda. Mom and Dad had a "thing" for names beginning with 'B'.

Thank You for your business and Referrals.
Until Next Month,

The trip also afforded me the opportunity to spend time with the cutest granddaughter in the world.

New Bedding and/or Headboard

Changing bedding or a headboard is a great and economical way to update the look and feel of your master bedroom or a guest bedroom. Here at IE we all love fabrics, and excel at updating bedding.

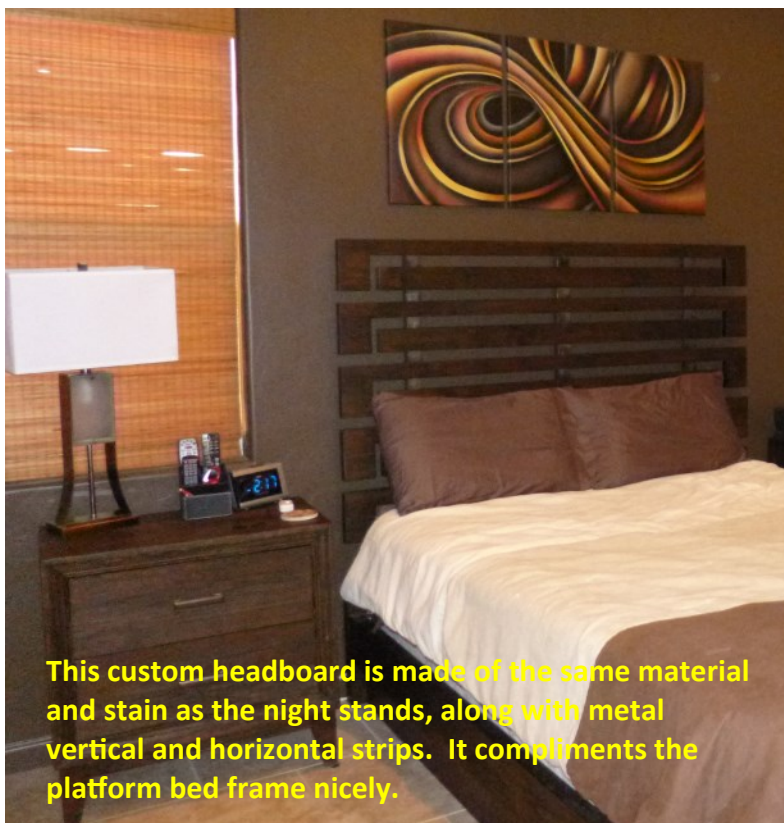

Here are some examples of what we have done for our clients with bedding and headboards.

Here we used a metal canopy frame to make the bed the focal point of the room. We utilized artwork above to give the sense of a headboard.

This quilted arched headboard and fitted inset bedding provides a very luxurious and inviting feel for this bedroom.

This custom headboard is made of the same material and stain as the night stands, along with metal vertical and horizontal strips. It compliments the platform bed frame nicely.

Simple Bedding or Headboards can work well too. This two-post headboard with woven leather between works well in this room.

Can Transform a Bedroom

Before

From Flat to Fabulous

This client wanted a real WOW factor when walking into the master bedroom.

We accomplished this with 72 individual upholstered panels as the headboard.

A custom canopy with lighting was used to provide definition.

The bedding, pillows, night-tables and lamps were all selected to compliment this focal point headboard and canopy.

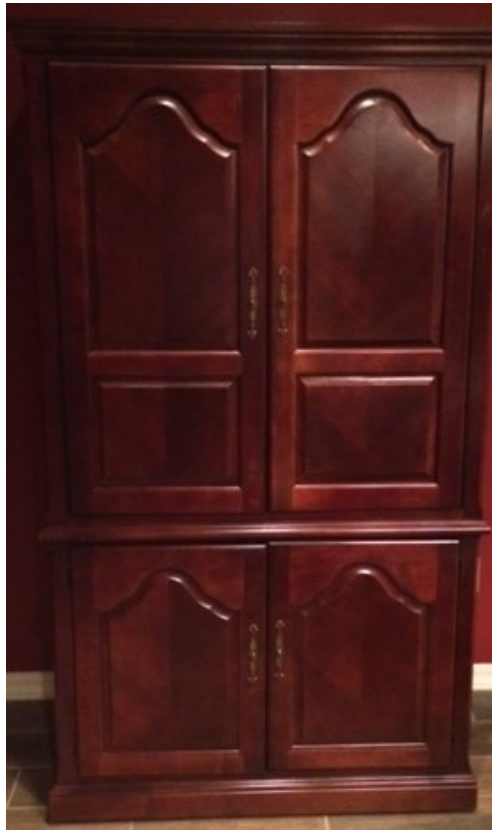

This bedding was created to compliment the area rug.

The Tuscan bed headboard & footboard were selected to compliment the overall look and feel of the home.

Square buttons were used on this upholstered headboard to tie into the bedding and pillows.

REPURPOSED TV ARMOIRE

Our custom woodworker took this clients “worthless” old TV Armoire, unsuitable for today’s large flat-screen TV’s, and converted it for wine storage. Notice the wine glass storage at the top, which keeps the glasses dust free. Our clients are thrilled with the transformation.

If you have a similar or other piece of furniture that might be able to be re-purposed, give us a call and we’ll explore the possibilities with you.
