My Three North Carolina Boys

Molli's Memo

Mommy is always trying to get me to smile for her to take a picture.

Sometimes I'm just not into the smiling thing. What about you?

Here I got the best of Mommy, by smiling and sticking out my tongue.

Mommy & Daddy, I *promise* I won't be a problem as a teenager.

Molli Bryn,
Nana's first granddaughter

Zachary (age 12), Grant (age 10), Andrew (age 14)

I often brag in this newsletter about the 'cutest granddaughter in the world', Molli Bryn. We also have three great grandsons from our wonderful daughter Tellie and her tremendous husband Tom.

Since both their parents are Iowa State grads, our 3 NC Boys are Iowa State fans, by birth. That works out well since our son and daughter-in-law (in Iowa) are rabid Iowa State grads and fans too.

All 3 NC Boys are HUGE sports fans. Since they live near Charlotte, NC, they tend to lean towards rooting for the Charlotte and North Carolina teams. I get a huge kick out of seeing them (usually at Christmas time) "debate" the pros/cons of the different sports, teams and players.

Thank You for your business and referrals.
 Until Next Month,

Betty Jones

What Our Clients Are Saying

I love what you have done for me in my home. You and your staff were great to work with. Helpful, friendly and extremely knowledgeable about all aspects of home design. You put me at ease from the very start - there were no problems at all.

Wall & Ceiling Treatments

As interior designers, we strive to make each client's interior space special for you. We've often been asked to duplicate what we have done for one client, and always refuse. We can help a client create a similar look, but we will never duplicate what we created for you. That would violate our sacred client relationship.

Wall and ceiling treatments are one way we personalize a space for clients.

Here are a few examples of how we have personalized a client's interior space with wall and ceiling treatments.

Powder Room with Real Leaf Wallpaper

This powder room features wallpaper which incorporates real plant leaves in the pattern. You can't tell from this photo, but many of the leaf stems protrude from the wallpaper.

This provides a compelling 3-D aspect to the wallpaper which results in a unique look.

Unique Ceiling Treatment

Ceilings are an often overlooked opportunity to provide a personalized interior finish.

We enhanced this office/den tray ceiling with a faux iron treatment (light-weight resin) to provide a dramatic statement.

This ceiling treatment is a cost-effective way to connect and coordinate the look and feel we were trying to achieve with this room.

To Make a Room Special

GYPSUM PANELS are one of the newest wall treatment options. They provide a cost-effective way to add a new and unique look for a wall or room. These panels can be painted to enhance your particular interior space.

ACCOUSTICAL CEILING TILES

These are acoustical tiles inset in this dining room tray ceiling.

They are patterned and painted to look like an old world tin ceiling.

Besides enhancing the look of the dining room , they provide much needed sound absorption so the group's conversation is not bouncing off the walls and ceiling.

Powder Room Mural and Stenciling

This mural was painted over the toilet, replicating a hill behind the client's home.

The shape of the mural was to "mirror" the shape of the mirror on the opposite wall.

The deco band around the ceiling incorporates the style and colors of the talavera sink bowl.
